on Test settings by default it is on the Tests screen.

## Add new Test

On the left side, a button is displaying and clicking on it to add a new Test. Tests that are performed in your laboratory, should be added to the system before they can be conducted for a patient.

There are three sections on the 'Add test' page i.e. Test (details), Test parameters, and Test chemicals/tools (used to perform the test).

To add a test, use the 'Test' menu and select the 'Add test' option. Fill in the form with the required test's details.

#### **Report templates:**

We are providing three types of report templates.

- General report
- PCR report
- Custom report

You can use whichever you want.

Test parameters should be added in the 'Test parameters' section. Use the 'Add test parameter' button to add a new parameter record for the test. To remove a parameter from the test, use the 'Remove' button at the end of the parameter record.

Chemicals or tools consumed for a test are added in the 'Test chemicals/tools' section. Use the 'Add test chemical' button to add a new chemical/tool record for the test. To remove a chemical from the test, use the 'Remove' button at the end of the chemical record.Save the test details using the 'Save' button.

#### Add new Test package:

If the lab wants to give a package against more than one test, then click on the Add **New Test package** button.

There are two sections on the 'Add test package' page i.e. package(details) and add tests that are in the package. To add a test package, use the 'Test setting' menu and select the 'Test settings' and click on the 'Test package' option. Fill all required information and test's package details.

Save the test package details using the 'Save' button.

## **Add Collection Centre**

Collection centers are the outlets where a patient's samples are collected for tests. There can be laboratories that have multiple collection centers across a town but tests are performed in one central laboratory. To add a collection center, use the 'Collection center' menu and select the 'Add Collection Centre' option. Fill in the form with the collection center's details.

#### Set discount:

- The lab can set discounts per test and per day.
- Can set a daily counter.

Collection centre		<b>€</b> Back to	collection centres listin
Collection center code *	Collection center name *	Address *	
Maximum discount per test (%)	Maximum discount per day (%)	Daily counter start value

## **Adding Employees**

To add an employee, use the 'Employee' menu and select the 'Add Employee' option. Fill in the form with the employee's details.

employee					
mployee					Eack to employees listing
First name *		Last name *		Phone number *	
First Name		Last Name		92	
ENIC *		Address *		Gender *	
CNIC		Address		<please a="" select="" value=""></please>	~
/ge *		Joining date *		Salary (Rs.) *	
Age		07-05-2021		0.000	
ather/husband name *		Email *		Marital status *	
Father/Husband Name		Email		<please a="" select="" value=""></please>	~
.ab *		Work collection center *			
Inova lab	~	Inova lab_Main	~	Marketing representative	
Allow web login					
Jser name *		Password *		Employee role *	
Email		Password	3	<please a="" select="" value=""></please>	~

If user want to web access to the employee, click on the 'Allow web login' checkbox. Fill in the employee's login credentials by providing a 'Username' and 'Password'.

Click the 'Save' button to store employee details.

**Note:** there are three types of default system roles in OneLABz. Admin (users who can administer all aspects of software); Pathologist (users who approve test results, a test's report can not be printed unless it is approved by a pathologist); Lab operator (users who collect test samples and print results after a pathologist's approval)

User details Login id * Email	Password * Password	ø, Save	
	Copyright ©2020 Power	ed by <b>TechXect</b>	e

On the Employee screen, a checkbox is 'Marketing representative'.

A lab set the target on MR employees.

Collect sample referred doctors.

### **Employees Listing**

Admin and Pathologist users can see the list of Employees. Employees can be searched using the 'Search by' criteria; to clear the search filter the 'Reset' button can be used. To copy records in the clipboard, export them in CSV, Excel, or PDF files or print them, users can choose from the appropriate export buttons displayed on the top left of the listing. The number of records shown per page can be altered from the paging dropdown at the botto left

of the page. Arrows on the bottom right of the page can be used to easily navigate through multiple pages. Records can be sorted by clicking column headers.

## Pathologist

Pathologists approve test results. Admins or lab operators cannot print or send test results to doctors or patients without approval from the pathologist.

## Lab Operator

Lab operators have fewer access rights as compared to admin or pathologists, and they cannot print a test result unless a pathologist approves it.

## **Adding Doctors**

OneLABz stores doctors' details in the system to keep track of doctors who refer patients for test results, and to calculate their referral share percentage. To add a doctor, use the 'Doctor' menu and select the 'Add Doctor' option. Fill in the form with the doctor's details.

d doctor

## Labs

Admin and Pathologist users can see the list of Labs. Employees can be searched using the 'Search by' criteria; to clear the search filter the 'Reset' button can be used. To copy records in the clipboard, export them in CSV, Excel, or PDF files or print them, users can choose from the appropriate export buttons displayed on the top left of the listing. The number of records shown per page can be altered from the paging dropdown at the bottom left of the

page. Arrows on the bottom right of the page can be used to easily navigate through multiple pages. Records can be sorted by clicking column headers.

## Add item

To record inventory and availability of chemicals that are used for different tests, the chemicals are added to the system. The inventory of chemicals is automatically reduced when a test is performed in which the chemical is used. To add a chemical, use the 'Admin chemical' menu and select the 'Add admin chemical' option. Fill in the form with the chemical's details and use the 'Save' button to store the input values.

#### Items

All chemicals which are added in OneLABz can be viewed on this screen.

## Access control

## Add roles

When adding any lab by default it creates five different types of roles, 'Admin', 'Pathologist', Lab operator, Doctor and patient, if admin assign features but for 'Pathologist', Lab operator, Doctor and patient have limited features.

Dashboard Sample collection Test result Patient	Expense Stock Quality control Reports Settings Access con	trol Admin 🌲 admin admin
Add role	Add roles Roles	
Role

Name	Description	TechXect 🗸
Active	Admin	Pathologist
Lab operator	Doctor	Patient
Role features		
Available features		Selected features
Menus Dashboard Sample collection Collect sample Samoles	<	Activate Windows Go to Settings to activate Windows.

## Admin has different types of role:

## Admin

Admin has all roles in which all graphs, access rights.

#### Lab operator:

Lab operators have fewer access rights as compared to Admin.

#### Pathologist:

Pathologists have just approval rights.

#### Doctor:

Doctor have access rights

- Collect sample
- Samples
- Test results
- Doctor share report

#### Patient:

Patients just can view their test results.

• Test result listing.

#### **Collection center:**

Collection center have access rights

- Collect sample
- Samples

#### **Reception:**

Have access rights

- Collect sample
- Samples listing

#### Marketing Representative:

Market representative have access rights

- Dashboard
- Lab settings
- Doctor
- Add doctor

## Sample Collection

## **Collect Sample**

In order to record tests that should be conducted for a patient, use the 'Add sample collection' screen. Use the 'Sample collection' menu and select 'Add sample collection'.

The patient for whom the test is performed should be selected in the 'Patient' field. Use the 'Add patient' button if a patient does not already exist in the system.

Appropriate checkboxes for email, SMS, or WhatsApp can be selected if a patient or doctor needs to be notified when test results are ready.

## Notification

Checked checkboxes for notification. if patient or doctor wants emails then check email checkboxes for SMS and WhatApp notification select SMS or WhatApp checkboxes

Notification			
Email to patient	SMS to patient	WhatsApp to patient	
Email to doctor	SMS to doctor	WhatsApp to doctor	
Doumont dotaile			

### **Payment details**

Fill in the payment details in the 'Payment details section. Please note that the standard configured charges are applied by default for the tests.

To apply a discount use the 'Discount (%)' or 'Discount amount' fields.

If you wish to print an invoice receipt, use the 'Save and print invoice' button. Use the 'Save' button to just store the details in the system.

Gross amount (Rs.) *	Discount (%) - [Allowed discount 0% ]	Discount amount (Rs.)	Net amount (Rs.)
0.000	0.00	0.000	0.000
Paid amount (Rs.)	Doctor share (Rs.)	Due amount (Rs.)	Now paying (Rs.)
0.000	0.000	0.000	Now paying

#### Invoice print

After payment, an invoice is generated. On that print different type. Admin can print A4, A5, or thermal.

#### A4:

A5:

Admin should change the display order.

## **Test result**

## Add test result

Once tests have been conducted and results are ready, they can be added into the system using the 'Add Test Result' screen.

Use the 'Test reference number' field to search the test against which the results need to be added.

Open the result in edit mode and write the test result with appropriate details.

Use the 'Print result' button to print the results. Please note that results are only printed if a pathologist has already approved the results and the patient has cleared the dues.

## Patient

Resend an email to the patient for a reminder if dues are not clear, or results are ready to collect from the Lab.

## Doctor

Resend email to doctor with a PDF file of the patient's report.

Multiple prints click to print with header

Multiple prints on letterhead report will print without header

### Add Expense

There are three types of expenses managed in the system.

- Petty cash
- Purchases
- Salary

To add expenses, use the 'Expense' menu and select the 'Add expenses' option. Fill the form with relevant details and save the form to record an expense.

## Reports

There are many reports available in OneLABz for analysis and strategic decisions based on different data. To generate a report, use the 'Report' menu and select the particular report for which data is needed.

## Patient dues amount report

This report is to figure out the due amount of patients.

Pi	atient dues report
